edX Verified Certificate for Data  
Science and Machine Learning  
Capstone Project  
edX Verified Certificate for  
Introduction to Data Science

## Honors-Awards

Electronics Engineering Board Exam  
5th Placer  
Electronics Technician Board Exam  
4th Placer  
Magna Cum Laude

# Denver Magtibay

5th Placer ECE | 4th Placer ECT | Master of Artificial Intelligence  
Batangas, Calabarzon, Philippines

## Summary

With 7 years of excellence as a top-ranked Electronics Engineering instructor and national board exam review specialist, I have successfully transitioned into the field of Artificial Intelligence, blending deep technical expertise with cutting-edge AI innovation. A topnotcher in both the Electronics Engineer (ECE) and Electronics Technician (ECT) licensure exams, I have coached hundreds of students toward success, pioneered AI-driven educational tools, and championed data-driven strategies in academic and technical fields.

I recently completed my Master of Artificial Intelligence in Business at SP Jain School of Global Management (Dean's Lister, Batch Valedictorian), equipping me with advanced skills in AI development, machine learning, data science, and digital transformation strategy.

Today, I specialize in building intelligent systems, applying AI to real-world business challenges, and developing next-generation technologies for education, engineering, and beyond. To further sharpen my expertise, I am actively participating in Kaggle competitions, continuously learning new techniques in machine learning, data science, and AI problem-solving.

At the core of my work is a commitment to excellence, innovation, and purpose-driven impact — shaping future leaders, empowering industries, and pushing the boundaries of what technology can achieve.

Let's connect — I'm passionate about collaborating on AI projects, educational innovations, and transformative digital initiatives.
